SUBJECT: Star Accessibility Framework Policy

PURPOSE: This policy is intended to provide guidance for the initial assessment phase of implementation of the Access for All Star Accessibility Framework. Oklahoma Works Access for All was developed as a system-wide effort to coordinate training and strategies in support of making one-stop Oklahoma Works/ American Job Centers technology accessible to individuals with disabilities, as described in 29 CFR part 38, the implementing regulations of WIOA sec. 188. The Star Accessibility Framework operationalizes the Access for All system strategy by providing an assessment tool for the continuous improvement of the workforce system in the areas of customer service, training, outreach, and physical accessibility. The Star Accessibility Framework Rubric is designed to be a tool in support of continuous improvement at American Job Centers and system efforts including but not limited to center certification and strategic planning. In Phase I of implementation of the Star Accessibility Framework, local workforce development areas will conduct an initial assessment of centers.

Customer Service

Compliance

Most staff demonstrate awareness of basic knowledge and skills for serving customers with disabilities, but show limitations in processes and strategies related to disability etiquette to evaluate and provide service to individuals with disabilities (may have been serving people with disabilities but are unaware that they have a disability).

Maintenance

Most staff have awareness of accommodations available for customers with disabilities, but do not proactively offer accommodations to customers. Processes and strategies have been developed to create a “no wrong door” approach to accessibility for current customers.

Prevention

The majority of staff proactively offer accommodations and assistance to customers throughout the service process. There is evidence of processes and strategies to anticipate customer needs and practice positive, efficient etiquette for individuals with disabilities.

Actively Responsive

All staff demonstrate ability to assess and anticipate accessibility needs of job-seekers and advocate on their behalf. There is evidence of a process to assess and exchange feedback for improvement in the accessibility of services across partner agencies. There is a designated accessibility subject matter expert on site on behalf of the workforce system.

Proactive

All staff continuously assess accessibility needs of all job-seekers through established processes, mindsets, and shared values of customer service. Customers and stakeholders are included in the development of policies and processes for service. There is a designated accessibility subject matter expert on site on behalf of the workforce system.

Maintenance

100% of staff have participated in annual training related to serving individuals with disabilities and at least 30% of staff have attended 2 or more accessibility trainings per year.

Prevention

Staff receives quarterly training on multiple topics related to serving people with disabilities. At least 60% of staff have attended 2 or more specialized accessibility trainings per year.

Actively Responsive

Consistent and frequent staff training related to accessibility is available to all staff and incorporates customer and partner feedback to improve services to individuals with disabilities. There is evidence of a followed process of keeping current with practices and lesson relevant to serving people with disabilities that may include ongoing learning; continuous efforts to be accessible, including up to date training, policies/procedures for new staff, up-to-date adaptive technology, etc.

Proactive

100% of staff receive consistent and frequent training on a wide range of accessibility-related topics on a regular, ongoing basis. Outreach

Compliance

100% of current, public-facing outreach documents and announcements for advertising, recruitment, and feedback are consistent with modern accessibility standards (WIOA Section 188 and 29 C.F.R. part 38). Website and 100% of current, public-facing digital outreach materials are accessible. Evidence of a reasonable effort to conduct targeted outreach to at least one population protected by WIOA Section 188 and 28 C.F.R. part 38.

Maintenance

100% of current, public-facing digital and non-digital outreach materials are accessible, including website. Effectiveness of targeted outreach is analyzed for improvement. EO data reports from OKJobMatch inform outreach strategies and continuous improvement efforts.

Prevention

All outreach documents and announcements comply with 29 C.F.R. 38.38. There is consistent and frequent analysis of outreach efforts and strategy development to protected populations. There is evidence of the development of an annual outreach plan to local businesses to identify equal opportunity and nondiscrimination training needs.

Actively Responsive

Implementation of annual assessment of employer and community partner needs related to equal opportunity and nondiscrimination. Evidence of feedback incorporated into outreach plan and/or strategies. Outreach plan strategies align with locally identified sector strategies and demand occupations.

Proactive

Evidence of ongoing employer and community outreach to meet training needs and promote resources and best practices for equal opportunity and nondiscrimination. Outreach plan proactively identifies and actively responds to appropriate employers and community service groups within target occupational sectors about ways in which it may improve its outreach and service to underserved EO populations.
